- ✓ Approved by MOMS

### Product Description

Bambo Nature is not only committed to providing a comfy, absorbent diaper for your child, but also to caring for the environment during our manufacturing process. Based on Nordic traditions for sustainability, we produce our diapers with great love and care in Denmark, while ensuring that they are completely free of dangerous chemicals and perfumes to minimize the risk of allergy and diaper rash. Our environmental commitments also extend to our diaper packaging, which consists of 30% post-consumer recycled plastic. The recycled materials originate from consumer household plastic waste, that is carefully cleaned and sorted by grade. The packaging should be recycled with other plastic waste. Our Bambo Nature diaper is FSC, Nordic Swan, EU Ecolabel (CE marked products excepted) and Asthma Allergy labeled. Above that, it is dermatologically tested. Bambo Nature – Because you care.

Nordic Swan Ecolabel is an official Scandinavian environmental label. Products with the Nordic Swan Ecolabel meet stringent environmental requirements with regard to raw material, production, use, documentation, and safety.

FSC™ (Forest Stewardship Council) is an international non-governmental organization dedicated to the promotion of responsible forest management worldwide. FSC™-certified products are made from raw materials from well-managed forests and responsible sources. The label's traceability and integrity are upheld through stringent control measures, and by choosing FSC™-certified products, you help take care of forests and the people and wildlife that call them home. For more information, go to [www.fsc.org](http://www.fsc.org).

The EU Ecolabel, also known as the EU Flower, is the official environmental label in Europe. Products with the EU Ecolabel meet stringent environmental requirements with regard to raw material, production, use, documentation, and safety.

Asthma Allergy Nordic is a proof of the product being recommended by the experts from Asthma-Allergy Nordic. Products with the label do not contain perfume, and they pose a minimal risk of skin allergy development.

The Dermatologically Tested symbol guarantees that products have been tested for potential skin irritations by an independent third-party laboratory.

The product is fully breathable making it more comfortable for a longer period of time, maintaining skin integrity.

Wetness indicator is a liquid-sensitive strip that changes color or fades out indicating when it is time to change the product.

The product has a very soft surface for a more comfortable fit.

Flexible side panels for optimal fixation, easy application, snug and secure fit.

Special feature in incontinence products and baby diapers that help disperse fluid and keep the skin dry.
